

TECHNICAL DATASHEET

36-592 SILICONFETT

BILTEMA SILICONE GREASE

DESCRIPTION

Biltema Silicone Grease is a superior quality, extreme temperature resistant dielectric grease which offers excellent water resiliency and corrosion protection. The silicone based properties reduce friction and provide long lasting lubrication not found in traditional greases.

ADVANTAGES

- Ideal for fitting new brake pads.
- Lubricates all plastic and rubber parts which suffer constant friction.
- Excellent coating capabilities which provide a barrier against water.
- Seals out water & stops squeaks without cracking or splitting rubber.
- Electrically insulating and does not break down when high voltage is applied.

APPLICATIONS

Brake pads, 'O' rings, brake callipers, soft top roof leaks, brake & clutch cables, door/window rubber seals, spark plug boots, plastic pipe. The NLGI for 36-592 BSG070 is 2.

PROPERTIES

Color	White
Texture	Smooth
Temperature Range (°C)	-40 to +400
Density @ 15°C	0.940
Storage Life	24 Months

ENVIRONMENTAL PROTECTION/SAFETY PRECAUTIONS

Do not pour used or surplus oil down sewers or drains. Dispose of used or surplus oil at your nearest oil-recycling bank. Dispose of empty packs in a responsible manner. Store container in an upright position and secure when transported. Wear goggles if splashing risk. Avoid exposure to oil mist. When using oil do not eat, drink and smoke. Wash hands after use.
