### BILTEMA START SPRAY

#### **DESCRIPTION**

Biltema Start Spray is an aerosol product formulated to start engines quickly in all kinds of weather. The product contains a blend of Ether and Petroleum Distillates to produce a starting fluid with a low freezing point, high vapor pressure and low flash point (produces a vapor at low temperatures which is easily ignited).

#### **ADVANTAGES**

- Starts engines quickly and reduces drain on batteries.
- Contains upper cylinder lubricant.
- For use with both Petrol and Diesel engine vehicles.
- High pressure jet for rapid action.

#### **DIRECTIONS FOR USE**

- Direct spray into air intake at short range for 2-3 seconds. Not necessary to remove air filter.
- Use starter or crank until engine fires evenly.
- For diesel engines do not use heater plugs.
- For petrol engines, do not use choke or flood carburetor.

#### **CAUTION**

- Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C.
- Do not pierce or burn even after use.
- Do not spray on naked flames or any incandescent material.
